### THIS SHARPER STUNG THE UNION BARBERS

Chicago, Sept. 16.—Morris Silver, who the police say formed the "National Barber Association" to collect money to increase prices in barber shops, is under arrest today. He is charged with obtaining money under false pretenses.

Silver collected funds from barbers throughout the city on the grounds that the price of a half-day would be raised to 50 cents, and that a charge of 10 cents would be made for washing the hair wet and two cents for combing it dry.

Hundreds of barbers contributed to his "cause."

### COTTON PICKERS GO ARMED IN FIELD

Mulberry, Ark., Sept. 16.—Cotton pickers in Crawford county were tortured and picking brought to an abrupt close here Friday night as a result

of the demonstrations of night before which killed the county. Today pickers were working with shotgun shells over their shoulders while night men were being tried before Judge Scott, an alleged night rider.

White pickers were warned by the police that they must quit shooting or face the same fate as the night men were being tried before Judge Scott, an alleged night rider.

The night men told the pickers they would be exempted if they would not shoot at the ends of rows. If they refused to obey the injunction, Pickers said, that as many as 200 men participated in the invasion

### NOW WHAT DO YOU THINK OF THIS AS AN "INCIDENTAL?"

One of the individual members that are extras in the Capitol magazine here is the person of grounds that this will cost approximately \$10,000 additional to the appropriation for the building is estimated as members of the commission.

A method of reducing the cost to a minimum that comes to my mind

is to have Williams and others of married this week at Los Angeles, to be exonerated from the federal prison

on St. George. This probably will be done. Grants that has been used in this morning came from Johnson county and is \$100. That from Leon county, \$100. At the edge of the terrace

far from the building, it is believed, the signatures of the night riders remain.

The work of granite will be done by state prisoners and the cost will be much less than it would be if commercial quarries should be used.
